“ Zachary and Family, Please accept sincere condolences from Jack and I concerning the loss of your father. I am not sure that you will remember me but your dad and Jack, my husband, were friends. Your grandmother brought your sister and you to our house one summer on Moss Lake for a swim, and we took another trip to Texoma where you kids swam and the men did some diving. David taught Jack and at least one of my daughters to scuba dive while he was living in the North Texas area. I never took the opportunity to tell him how much I appreciated him getting us started in a wonderful family hobby. My husband and daughters still love to dive. Every time we take a vacation to Cozumel I think of your dad. He was a joy to know as a person. I truly regret that we failed to keep in touch.
