“ It is often said that the people you meet early on in your career make a lasting impact on your life, and Edison was absolutely one of those people. I was heartbroken to hear about his passing.

*I had the privilege of working closely with him and interacting with him often on the Mustang Lakes 100s model — which was one of my first big projects. We connected easily, especially because he was around the same age as me, and it always made working together feel more natural and genuine.*

*Edison was always dependable, professional, and incredibly kind throughout the entire process. Even after the Mustang Lakes project ended, he continued to be helpful and supportive anytime I needed advice on anything related to construction.*

*One of the things I'll always remember is how ready he was to jump in — especially when we visited the Mustang site. He always had his notepad in hand, taking notes and making sure nothing was missed.*

*Edison will be deeply missed by everyone who had the opportunity to work with him. My thoughts and prayers are with his family, friends, and loved ones during this difficult time. Till we meet again, my friend.*
