“ I met Jerry while volunteering at the animal shelter in Pilot Point and found him to be the most kind and compassionate man. Because of his deep love and devotion for cats, many of their lives were saved. He gave of his time to this worthy cause and I was so grateful for all the love and time he put into helping these homeless pets. He had a heart of gold.

“ Jerry was a good man. I had the pleasure of working with him at TDIndustries. He loved his job and what he did, he loved his partners his family and his grandchildren. He was well respected and took great pride in the work he did. We attended a few classes together and it was always interesting to hear his take on things. Jerry was a thinker and a unique soul. My condolences to the family and congratulations to the friends that had the chance to know him. I hope to see you on the other side.

“ Jerry was one of the smartest pipe fitters I have ever known. He taught me a lot. He taught me all of the math. He was a great teacher. I always look for him at the shop even though he had retired. I knew him for over 35 years and one thing I knew for sure, he always had a cup of coffee in his hand.
