“ Miss clark was my science teach for 2 years of highschool. I never knew that walking into a chemistry class would make such a big impact on my life. She was the sweetest woman. she gave us snacks from her lunch when she was hungry. she always brought us cookies or cupcakes (homemade) for holidays. my sophomore year she had us decorate cookies for christmas and i will never forget her laughing at our awful frosting jobs. she was the sweetest soul ive ever met and i wish she could've seen me graduate. I want to Thank everyone who helped her rest peacefully she was my favourite teacher.

“ *Brandy and family. I started working with Leslie at Pilot Point in August of 2023. Leslie and I had classrooms side by side. At the time I was going through a very very difficult separation and divorce and Leslie truly had to carry me many days through my struggles. I retired from teaching in December of 2024 but we stayed in touch through texts and social media. We would send each other funny reels all the time. The last ones we sent were on April 7th and we sent each other the same video just a couple of minutes apart. I was so very saddened to hear of her passing. She was a true friend when I did not have many people to lean on at all. I will miss her spunk and heart of gold. You are all in my prayers. She loved you all very much and spoke of you all daily. May God bring you all comfort and peace.*

“ *I will miss seeing you everyday at work. You were always so kind to me, asking me how I was doing everyday, after my son passed away. I will never forget that and will forever be grateful.*
