“ I met Travis in 1998 on IRC when we were both like 9. We had a lot of common interests one of which was internet security, which allowed our friendship to grow. We worked on many projects together. He was always a very great friend, and loyal. He will be greatly missed. I will never forget those days, nor spending them with him. I wouldn't be where I am now if it wasn't for Travis way back in 1998 through the mid 00s. As we got older we talked less, but I am deeply saddened to hear this news. My prayers go out to his close friends and family.

“ I met Travis at NCTC. We had many classes together over the years. I remember when I met Travis in the Android app development class I was blown away with how smart he was! I learned a lot from him in the short time I knew him! RIP Travis! You will be missed dearly.

“ I am saddened to hear of Travis's passing. I learned everything I know about Linux from Travis. He had a wonderful personality and a passion for teaching. I have asked Travis so many stupid questions about Linux. In response, he would chuckle, and try to dumb down technology enough for me to understand it. I will forever miss the conversations I had with him and I know others feel the same. Travis will surely be missed and my prayers go out to the family.
