“ I am relieved you were able to die at home (out of the hospital) and are no longer in pain. I am already missing talking on the phone with you but as you know I am still having our conversions in my head. I love you Bill and will never forget the many times you reached out to me and helped in my troubles, I will never forget our childhood - the good and the bad. Love the way you taught people how to think differently and to learn lessons on how to achieve their goals.
